You may not be expecting a telegram, but so often the unexpected happens. Have you filed your address with the telegraph company to which every one turns in the hour of sorrow, or when there is news too good to wait for the mails? The Western Union has connections to your old home town; it reaches out into the little out-of-the-way places, either by telegraph or telephone connection. But should a telegram reach the local Western Union office for you, will we know where to reach you without delay? We may have your business address, but be unable to reach you at other hours, owing to the fact that you have not filed your address with us. We would be glad to have everyone, both permanent residents and transients, come in and get acquainted with us and leave your address here, or call us on the phone and tell us where we can find you without delay.—A.
